

# February

It's hard to believe that it is February already! Time definitely does fly when you are busy. And we have been very busy in the Infant Room! We've seen a lot of development happening; from crawling and walking to increased self help skills and language. We've been singing a lot of songs, playing pretend with baby dolls and having fun playing silly games like "Peekaboo" and "So Big!".

Alessandra seems to be having a great time getting to know her new classmates and teachers. One of her favorite games is playing catch and throwing the balls.

We look forward to warmer weather and wish everyone a Happy Valentine's Day!
